

# Profile® | High Efficiency Mulch

## No Matter What Hydraulic Mulch Solution You Need or Prefer, Profile® Has You Covered

From the highest loading to the highest performing and everything in between. Introducing Profile® HydroStraw® High Efficiency (HE) Mulch and High Performance (HP) Mulch.

### Profile HydroStraw High Efficiency (HE) Mulch Solutions

Our popular line of High Efficiency (HE) Mulch Solutions features enhanced HydroStraw products.

Ideal on a broad range of site conditions, you can put more down on the ground in less time. Better yet, you can do it with fewer tank loads and less water thanks to the versatile straw base. You can add up to 50% more mulch and spray up to 50% more area per tank load. **Our complete line of High Efficiency HydroStraw products includes:**

- HydroStraw HE Original
- HydroStraw HE Guar Plus
- HydroStraw HE Bonded Fiber Matrix (BFM)
- HydroStraw HE All-in-One

### Why Choose Straw-Based Mulch?

- Put more product down in less time
- Complete a job using fewer tank loads
- Uses less water

HydroStraw® products are the highest loading products on the market within their respective classes and save you time on the job site.

#### TIME REQUIRED FOR PROJECT

	HydroStraw	Wood
Loading Time	390 minutes	590 minutes
Application Time	780 minutes	1,180 minutes
Travel Time	195 minutes	295 minutes
Total	1,385 minutes	2,065 minutes
