Efficiency & Flexibility

We've developed an efficient IRB review process that can be adapted to fit the needs of your institution. Including meetings twice weekly, expedited reviews on a daily basis, notification of decisions within 2 days of the meeting and formal communication of decisions within 5 days.

Connected IRB Model

Our Connected IRB Model helps institutions stay connected to all their studies by promoting communication across the key institutional stakeholders and serving as an extension of your research team.

Thoughtful, Collaborative Approach

Our staff works closely with the institution's leadership, IRB administration, and research compliance representatives to understand the specific requirements and preferences for working together.

Expert Committee & Staff

Our IRB committee members are physicians, pharmacists, and nurses from leading academic medical centers. Our committee includes thought leaders from a wide range of therapeutic areas with diverse backgrounds and decades of experience as IRB members. BRANY staff includes Certified IRB Professionals, legal experts, and research professionals with more than 10 years of experience in IRB administration.

Compliance & Auditing

Our compliance department routinely screens active research and selects studies for in-person or remote compliance review, helping organizations meet their post-approval monitoring goals.

Internal Compliance

BRANY IRB looks critically at its own processes and procedures through regular internal compliance audits to ensure the highest levels of compliance with federal regulations and AAHRPP standards.

Privacy Board

BRANY IRB can serve as the Privacy Board if needed. We can help ensure applicable requirements of the HIPAA Privacy Rule for use or disclosure of protected health information for research purposes are met.

Call or email us today to see how we can help meet your IRB needs.
