**TAILORED SOLUTION
FOR YOUR BUSINESS**

Telemedicine and Referral Practices

Improve efficiency and maximize your time

BOO\$T Referrals

Manage teams of all sizes

Improve Communication

Track Business Performance

Manage Customer Relationships

Telemedicine Consulting

- Set up your team of specialists with password protected access to receive cases from anywhere in the world, anytime and on any device.
- Your rDVM's appreciate the intuitive and speedy process of referring cases and accessing final reports, invoices and even making payments online.

Specialty Referral Centers

- Introduce a fully branded portal to your rDVM's as a way to drive your brand, boost marketing and outmaneuver competitors.
- Improve the intake referral process and keep referring veterinarians informed on the status of patients during their stay in your hospital.

Mobile Referral Services

- Manage your entire mobile practice from anywhere, including scheduling, reporting, archiving and invoicing for payment.
- Complete final reports on the road from any device and review your new case details before walking into your next appointment.
- The system is designed to empower independent specialists with an affordable turn-key solution.
