

Neurology & Radiology Make a Winning Team

With the right radiologists on speed-dial
you can create better patient outcomes
with enhanced diagnoses.

Collaborate with our small team of highly-responsive, MRI-specialized radiologists.

STAT means STAT. You'll get a call immediately after submitting the case and a report within 24 hours.

Philips 3T MRI

Why SVI?

- **Confident consultations:** with specialty in MSK and CNS MRI, we have seen tens of thousands of cases from standard to strange.
- **Responsive:** Immediate STATS, 24 hour reports, protocol consultation.
- **Experience:** Board-certified radiologists with true MRI specialization.
- **It's easy:** Our cloud PACS system is easy to send to, easy to read on, and easy to share.

Join us!

- **Neurosurgeons wanted:** We are growing quickly with new imaging center locations and looking for neurosurgeons in Texas and Utah who want to work across the hall from a 3T MRI.

Jaime Sage, DMV, MS, DACVR
Chief Radiologist | Founder

Born and raised in Round Rock, Texas, Dr. Sage received her veterinary training at Texas A&M and completed her radiology residency at Ohio State. She began her career at VDIC Portland (now IDEXX), where she explored her passion for MRI. After completing a three year mentor partnership with Dr. Pat Gavin, she purchased his teleradiology company MRI Vets. In 2021, Dr Sage became president of the CT/MRI society of the American College of Veterinary Radiology.
