A Robust Mentorship Network

Because when it comes to mentors, we believe the more the merrier.

The Whole Vet has been designed to provide you with a customized mentorship experience that addresses all aspects of your journey. As such you will enjoy not one, but four mentors, each with their own perspective to meet you right where you are.

Because they don't teach you how to be a great mentor in vet school.

Our veterinary mentors are invested in and committed to ensuring a positive and rewarding experience for our newest veterinary colleagues. They are constantly honing their mentorship skills and training to provide the best leadership to you.

Primary Mentor

A dedicated, experienced veterinary mentor within your practice that will be your primary mentor and will guide you along your year-long experience.

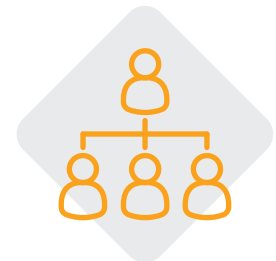

External Mentor

A veterinary mentor in one of our sister hospitals who will check in at least once a month and will serve as a neutral figure of support and encouragement.

Peer Mentor

A recently graduated peer mentor who will connect monthly to offer insights into the first year experience.

Mentorship Program Director

A dedicated veterinarian who leads the UVC mentorship program and is available to support you.
