

Turn your smartphone into a secure wireless microphone

PowerMic Mobile gives veterinarians the freedom to complete clinical documentation using a smartphone as a wireless microphone.

More Mobility, More Freedom

PowerMic Mobile turns your smartphone into a secure wireless microphone for use with Windows-based speech recognition solutions. Optimized for use with Dragon Medical One, PowerMic Mobile gives veterinarians the freedom to roam from workstation to workstation, room to room, and location to location to complete clinical documentation using a smartphone as a wireless microphone.

Subscribe

Veterinary organizations subscribe to PowerMic Mobile, and users simply download the iPhone or Android app.

Connect

Users log into any supported PC and their smartphone automatically pairs with the workstation to provide wireless connectivity for audio capture.

Capture

The smartphone's microphone captures the audio and inputs it directly into the speech recognition solution, functioning just like the PowerMic III, including user programmable buttons.

PowerMic Mobile enhances user productivity and convenience with support for Veterinary Practice Management software, user programmable buttons, and 256-bit encryption with end-to-end security over WiFi or cellular networks. Veterinarians can now opt to use PowerMic Mobile as a complimentary input device, or as an alternative, to the PowerMic III, PowerMic 4, or other supported handheld or headset microphone.

FEATURES AND BENEFITS

Greater mobility. Veterinarians can complete their patient notes at any available workstation, with or without a hard-wired microphone, as soon as they meet with each patient.

Scalable and centrally managed. PowerMic Mobile is highly scalable so it can grow with your organization and offers web-based central management for configuring and managing user accounts and preferences.

Works with virtual desktops. Desktop or thin client, at work or outside the office, PowerMic Mobile offers greater Veterinarian mobility throughout the hospital, clinics, and at home.

Automatic workstation pairing. PowerMic Mobile offers several intuitive mechanisms for pairing mobile devices with target applications, including Windows Login ID, Nuance Application Username, or token-based pairing.

User programmable buttons. PowerMic Mobile makes dictation easier and faster with programmable on-screen buttons to control audio capture, navigate templates, and effortlessly move through clinical documents for review and editing.

Compatible with iOS and Android. App distribution via the App Store and Google Play Store significantly simplifies end-user roll out.

Perfect companion to PowerMics. Support individual preferences and workflows by offering a combination of hard-wired PowerMics and PowerMic Mobile throughout the veterinary organization.

Optimized for Nuance solutions. Designed to work with any Windows-based desktop solution, PowerMic Mobile has been fully tested and optimized for use with Dragon Medical One and other Nuance solutions.

Subscription and Licensing

PowerMic Mobile requires an enterprise subscription. If your veterinary organization does not have a subscription to PowerMic Mobile, please have your site administrator call 866-977-3324. If your organization has an active subscription, please contact your site administrator for installation instructions for how to download and activate PowerMic Mobile on your personal wireless device.

System Requirements

Hosted Nuance Management Server (NMS) and enterprise license subscription required. Minimum device requirements: iOS 9.3.5 or later (iPhone 4s not supported) or Android 6.0, Windows PC, and Internet connectivity

About 1st-Dragon/CME

The origins of 1st-Dragon/CME began during the 1990s when we started working with earlier versions of voice recognition software. As the development of EHR/EMRs appeared on the market, we focused our efforts on customizing Dragon Medical to compliment the workflow of each provider based on their utilization of the EHR/EMR. Today, we are a trusted Nuance Platinum Partner with more than 24 years of experience helping thousands of healthcare organizations enhance their workflow using Dragon Medical. We have evolved into an organization with the experience to work with and support all practice sizes. We specialize in offering our clients a customized approach which is designed specifically for their clinical workflow.
