Home Infusion Solutions

2-Gallon Sharps Recovery System for Trace Chemo

The 2-Gallon Sharps Recovery System for Trace Chemo/Cytotoxic Drugs is the answer for home infusion organizations, patients, or pharmacies needing a disposal solution for trace chemotherapy waste.

The Sharps Recovery System is designed for simplified and regulatory-compliant collection, transport, and environmentally friendly treatment

of needles, empty vials and syringes, and other items contaminated with trace amounts of chemotherapy or other cytotoxic drugs or chemicals. This USPS-authorized mailback system saves home infusion providers time and money by not paying a courier or nurse to return filled containers to the branch. Patients and their families are assured that medical waste is managed with the same care as it would be in a treatment facility.

1-Quart to 3-Gallon Sharps Recovery Systems

The Sharps Recovery System is ideal for the home infusion patient who needs a cost-effective and safe disposal solution for used needles, syringes, and other regulated medical waste.

These convenient USPS-authorized mailback systems eliminate the risk of nurses transporting filled sharps containers in their cars and the confusion that patients have

when trying to determine what to do once containers are full. They are easily identifiable in patients' homes, increasing usage since patients may see multiple nurses throughout their therapy.

Conveniently Dispose of Sharps & Chemo Waste

Systems Include

- Collection container
- Prepaid USPS return shipping box
- Waste manifest tracking form
- Proper treatment and online documentation of treated waste

Advantages

- Cost-effective alternative to pickup service, reducing costs by as much as 50% or more
- No contracts or hidden fees - order systems as needed
- Easy for patients or employees to package for return
- Option to schedule free USPS priority pickup online
- Online tracking and proof of treatment via SharpsTracer available 24/7, giving complete cradle-to-grave data

Two 3.5-Gallon Pail TakeAway Recovery System

The 3.5-Gallon TakeAway Recovery System is a UPS-authorized mailback solution for used healthcare materials, designed for use in the home-infusion pharmacy.

This multipack system provides simplified collection, transport, and environmentally friendly treatment of needles, syringes, and other used healthcare materials generated at the compounding hood.

20-Gallon Sharps Recovery System

For a cost-effective and regulatory-compliant disposal solution for infusion pharmacy-generated medical waste, choose the 20-Gallon Sharps Recovery Systems.

These USPS-authorized mailback systems are leak-proof and puncture-resistant. They are designed for the collection, transport, and environmentally friendly treatment of sharps containers and other regulated medical waste (no loose sharps allowed).

Affordable Disposal Solutions for Home-Infusion Pharmacies

Systems Include

- Collection container
- One prepaid return shipping box

Pitch-It IV Poles

A convenient, affordable option for IV therapy, Pitch-It IV Poles quickly assemble and easily fold up for storage or recycling once therapy is complete.

Ready for use in just seconds with their innovative tripod design, the Pitch-It IV Pole and Pitch-It IV Pole Sr. are perfect for IV therapy in the home or in a healthcare setting. They eliminate the retrieval, cleaning, bagging, and tagging of old IV poles. Simply use and pitch it when therapy is completed.

Advantages

- No assembly required saves time
- Lower shipping costs than traditional IV poles, making Pitch-Its more cost-effective
- Lower cube packaging means lower handling cost
- Enhanced hook design for hanging IV bags
- Safe placement of all ambulatory and enteral pumps on Pitch-It IV Pole Sr.
- Made from 100% recycled materials

AssetReturn System

Sharps AssetReturn System limits the risk of losing expensive IV pumps and saves time and money by reducing trips to and from the patient's home.

Increase the timely return rate of infusion pumps, TENS units, and other expensive equipment with this innovative system. When the patient completes therapy, the equipment is shipped to your branch or other designated facility directly from the patient's home using the UPS prepaid return shipping box, which includes tracking and insurance.

Advantages

- Reduces risk of lost assets
- Eliminates expensive pickups and saves employee or courier time by using prepaid return boxes
- Diminishes potential equipment damage with specially designed foam packaging
- Available in three sizes: small, medium, and large
