## CONSULTATIVE APPROACH

With partnerships with major manufactureres nationwide, Right Way Medical takes a consultative approach to selling based upon our extensive knowledge of the IV industry.

We help evaluate pharmacies IV processes and make recommendations based upon our clinical knowledge and understanding of product quality.

## RIGHT TRACK

Right Way Medical developed its own fixed asset tracking software, Right Track, to run our business and manage our fleet of devices, alongside service and repair information.

We adapted Right Track for customers to simplify inventory management, tracking, and maintenance for all physical assets.
