

Member Resources

MHA Specialty Pharmacy Solutions has a number of resources available to help members be optimally positioned for success in an increasingly dynamic health care environment.

» Contract Resources

Take full advantage of MHA's negotiated pricing by being aware of contracts members have access to.

Specialty Contracts by Brand/Generic and Manufacturer	A listing of MHA's Specialty Pharmaceutical contract portfolio by therapeutic category and brand/generic.
Specialty Contracts List At A Glance	A listing of MHA's Specialty Pharmaceutical contract portfolio by therapeutic category.

» Clinical Pipeline Reports

Be prepared for future opportunities with reports that provide information about products not yet released.

Evaluate Pharma Pipeline Report	The Evaluate Pharma pipeline report outlines Phase III and FDA pre-registered new molecular entities (NMEs) and new drug applications (NDAs) for select therapeutic categories of member interest. It also provides information regarding current FDA approved NMEs and NDAs seeking additional indications. This report provides you with a key reference source to understand the pharmaceutical products in late-stage development that could soon enter the US market.
Evaluate Pharma Quarterly Business Insight Report	The Evaluate quarterly business insight report provides high level information regarding FDA activity from the previous report timeframe inclusive of both FDA drug approvals and denials. This report is meant to complement the information contained in the Evaluate pipeline report since it also contains information regarding FDA pending approvals both for new drug entities as well as currently approved drugs seeking additional indications for use.
Biosimilar Pipeline	From MHA's Clinical Team, this document outlines biosimilar products that are reported to be in late stage clinical development (FDA Phase III) or that have submitted an application for FDA approval.

» Additional Resources

A variety of specialty-focused educational and informational links and resources for easy reference.

Immune Globulin (IG) Comparison	A clinical comparison of IG products.
Multiple Sclerosis (MS) Comparison	A clinical comparison of MS specialty medications.
Inflammatory Comparison	An overview of selected anti-inflammatory specialty medications.
Specialty Therapeutic Categories by NDC	A list of products by NDC that MHA considers to be specialty.
Specialty Drug Co-Pay Assistance	List of manufacturer sponsored co-pay assistance programs for a variety of specialty drugs.
MHA SPS Limited Distribution Drugs	List of Limited Distribution drugs and the pharmacies that are able to access them based on publicly available information.
Medical Financial Assistance Resources	Links to patient assistance foundations.
