

PURAMINO™

Relief that helps
babies grow
and thrive

Relief of allergy and
gastrointestinal issues*
with key nutrients to
help babies reach
important milestones

* GI conditions requiring an elemental diet.

Suitable for Many Conditions

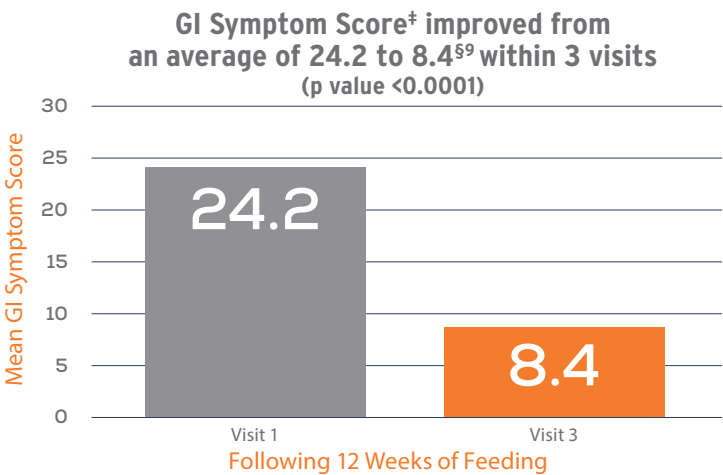

- ✓ Severe Cow's Milk Allergy (CMA)
- ✓ Malabsorption
- ✓ Multiple Food Protein Allergies
- ✓ Food Protein-Induced Enterocolitis Syndrome (FPIES)
- ✓ Eosinophilic Esophagitis (EoE)
- ✓ Short Bowel Syndrome

PurAmino is appropriate for **both oral and tube feeding**.

Hypoallergenic⁸, Iron-Fortified, Amino Acid-Based Formula

- Demonstrated effective improvement on cow's milk allergy GI issues
- For babies who continue to experience issues on an extensively hydrolyzed formula

How PurAmino Compares

INFANT FORMULA	PurAmino [™] Infant* per 100 kcal	EleCare ^{®1} per 100 kcal	Neocate ^{®2} per 100 kcal
DHA, mg	17	8	16.9
ARA, mg	25	22	16.9
Vitamin C, mg	12	9	10.7
Fat, g	5.3	4.8	5.1

PurAmino Infant has 2x the DHA of EleCare.[†]

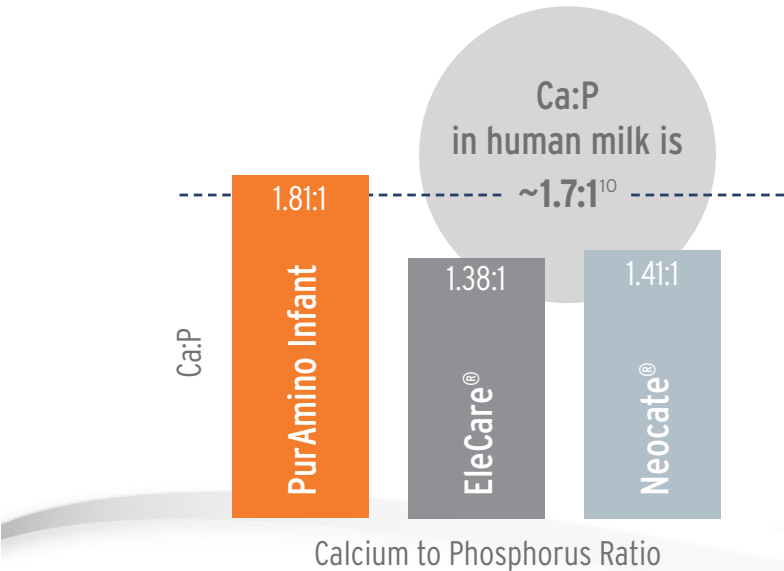

JUNIOR MEDICAL FOOD	PurAmino [™] Jr* per 100 g powder	EleCare [®] Jr ³ per 100 g powder	Neocate [®] Junior ⁴ per 100 g powder
DHA, mg	105	0	0
Vitamin C, mg	75	42.5	44.6
Calcium, mg	650	543	565
Protein, g	15.5	14.3	14.8

PurAmino Jr is the only amino acid-based medical food for children 1 and up that has DHA.

- PurAmino offers 33% MCT oil to facilitate fat absorption.
- Most children less than 5 years of age in the U.S. may get only 29% of the expert-recommended amount of DHA, an important nutrient for brain and eye development. Those with cow's milk allergy may get even less.⁵⁻⁷

Calcium to Phosphorus Ratio Closer to Breast Milk Than Other Brands¹⁰

- Calcium to phosphorus ratio (Ca:P) is important for bone growth and development during infancy.¹¹
- The bone mass accumulation in infancy is important for the avoidance of poor childhood growth and adult osteoporosis.¹²

* Refer to the label on the can for accurate nutrient information.
† PurAmino Infant has 17 mg and EleCare has 8 mg of DHA per 100 kcal. EleCare Product Information. Accessed February 7, 2022. <https://static.abbottnutrition.com/cms-prod/abbottnutrition-2016.com/img/EleCare.pdf>

PurAmino has not been shown superior to EleCare and Neocate in supporting brain, eye, and bone development.
‡ Vomiting and spitting up is rated >16 on the GI symptom score scale.
§ Studied in PurAmino Infant before reformulation.
EleCare and Neocate are registered trademarks of entities unrelated to Mead Johnson & Company, LLC.
