

# Vein360 RFA Catheters:

# A GAME- CHANGER!

## OUR INNOVATIVE PROCESS:

Reduce waste by  
collecting used devices

Rigorously reprocess using  
FDA-approved techniques

Pass significant savings  
to our customers

Vein360 is a different kind of company. We're committed to helping you optimize the cost-effectiveness, efficiency, and quality of your vein center. This is our only specialty.

Working with a new vendor can create challenges and that's why the team at Vein360 will work with your staff to make the process of integration seamless and hassle-free. You will be able to work within existing original manufacturer agreements, if necessary. Vein360 can also assist you in breaking free from those agreements, minimizing your costs and maximizing your positive impact on the environment.

Realize significant savings by partnering with Vein360 for FDA-cleared Endovenous RFA catheters.

### SAVINGS

Vein360 customers **save up to 50%**, generating thousands of dollars of savings without compromise in safety, quality and reliability.

### SAFETY

Every critical attribute of our RFA catheters is validated including **cleanliness, sterility, functionality and biocompatibility**. Further, we rigorously inspect 100% of our devices for form, fit and function prior to distribution.

### SIMPLICITY

Partnering with Vein360 **will not impact existing agreements**.
