

Achieve the True Mark of

**Excellence in
Patient Care**

for Your Facility with

IAC

Earning IAC accreditation indicates that your facility is:

Dedicated to Quality and Patient Safety

IAC's seal of approval verifies the quality your patients deserve. By earning IAC accreditation, you are showing referring physicians, patients and insurers that **your facility is in compliance with industry standards and committed to continuous quality improvement.**

Engaged in Continuous Improvement

The IAC accreditation process is more than an update every three years. Facilities receive a detailed Application Review Findings document as a **tool for improving the overall quality of their facility.** Special topic webinars, a CE finder and the IAC QI Tool also provide opportunities for ongoing process improvement.

Set Apart from Competitors

Patients, referring physicians and potential new staff members look for the IAC seal of accreditation as the 'gold standard' in the imaging and intervention-based procedure fields. **Facilities that achieve IAC accreditation possess the premier accreditation for imaging and procedure-based modalities,** demonstrating a clear dedication that they provide quality patient care and are continuously improving patient outcomes and safety.

Complying with Reimbursement and Regulatory Mandates

IAC notifies CMS and third-party payers of the status of accredited facilities to help ensure compliance with related mandates. Physicians may also utilize IAC accreditation to satisfy a component of the CMS MIPS Improvement Activity as part of the MACRA Quality Payment Program. The IAC QI Tool may also be used to satisfy the MIPS Improvement Activity and MOC.
