

## **ClosureFast™ Radiofrequency Ablation System**

# DELIVER PATENTED PERFORMANCE WITH CLOSUREFAST™ RFA SYSTEM

The only gap-free thermal ablation system with published long-term clinical data demonstrating safety and efficacy, with a 91.9% closure rate at 5 years.<sup>1,2</sup>

Medtronic

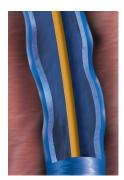

# WE'VE GOT YOU COVERED

Gap-free thermal ablation

The ClosureFast<sup>™</sup> RFA system delivers uniform heat for lasting vein closure.¹

- Patented segmental procedure
- Tumescent anesthesia
- Less pain and bruising than laser energy treatment<sup>3</sup>
- Post-procedure compression stockings required<sup>1</sup>

Disposable catheter inserted into vein

Controlled heat collapses vein

Catheter withdrawn, closing vein

# Deliver lasting results with gap-free thermal ablation

The ClosureFast<sup> $\mathrm{M}$ </sup> procedure features a patented overlap of 0.5 cm at each thermal treatment segment, eliminating gaps between segments — for lasting vein closure. <sup>1,2</sup>

7 cm heating element overlaps the previous segment by 0.5 cm as the device is repositioned.

Note: Catheter also available with 3 cm heating element and 2.5 cm markings.

# GO GAP-FREE FOR PATENTED PERFORMANCE

The ClosureFast<sup>™</sup> procedure, with its patented overlap design, is the only RFA procedure for venous reflux with published long-term clinical data demonstrating safety and efficacy, with a 91.9% closure rate at 5 years.<sup>1-4</sup>
