Get to Know Us

West Physics is a global provider of integrated medical and health physics testing and radiation safety services. Since our inception in 2002, we have been the leader and continue to set the standard in the imaging industry to improve patient medical diagnosis and reduce medical radiation exposure to patients and medical professionals as much as possible.

Our Services

Global Service Coverage

We are unmatched in our service capability and reach. We are proud to serve over 3,500 healthcare locations throughout the United States, federal territories, Caribbean, and Middle East. Our services are utilized by academic and community based hospitals, outpatient imaging centers, mobile imaging, and physician offices. Our staff are licensed and credentialed to operate in all 50 U.S. states and federal territories without any restrictions.

Top Qualified Medical and Health Physicists

Our staff specializes in solving complex problems. With diverse backgrounds and best-in-class education and training, we provide superior diagnostic capabilities and unequalled breadth of technical expertise.

Fastest Response Time

We are there when you need us. With our unique business model, we are able to provide unparalleled response times. We understand the challenges imaging providers face to comply with accreditation and compliance requirements, and therefore we have systems in place to schedule services, complete testing, and provide written reports the fastest in the medical physics industry.

Integrated Services

It begins and ends with the best service. Our physicist staff take the time to integrate with your department's image quality, patient and personnel safety initiatives. Building long term working relationships with imaging staff, physicians, and management is key to solve complex regulatory, accreditation, and radiation safety issues and improve the overall customer experience.

What We Offer

Modalities

- MRI
- CT & CBCT
- Nuclear Medicine/PET
- Mammography
- Radiography
- Fluoroscopy
- Ultrasound
- Bone Densitometry

Services

- Joint Commission Accreditation
- ACR Accreditation
- IAC Accreditation
- RadSite Accreditation
- State Physics Testing
- X-Ray Shielding Design & Verification
- Radiation Safety Officer (RSO)
- Laser Safety Officer (LSO)
- CT & Fluoro Dose Optimization
- Auditing & Regulatory Consulting
- MRI Safety Services

Training

- ASRT Accredited Online Training Courses
- License Course Content for internal learning systems
- Live Webinars & Seminars
- Experienced Instructors
