Complete Systems

We handle all the logistics

We offer complete systems across multiple modalities as a cost effective solution to any hospital or out-patient imaging center looking to add a CT, MRI, PET/CT, or C-Arm to their practice. All systems, prior to sale, may be refurbished at our 33,000 square foot state of the art facility and come with the backing of one of the largest imaging parts suppliers in the world. If you are in the market for a quality diagnostic imaging system, look no further than DirectMed.
