

United Imaging develops and produces advanced medical products, digital healthcare solutions, and intelligent solutions that cover the entire process of imaging diagnosis and treatment. Founded in 2011, our company has subsidiaries and R&D centers across the U.S. and other parts of the world. Our North American headquarters in Houston includes our corporate offices, factory, product showroom, service training center, and service parts distribution center. With a cutting-edge digital portfolio and a mission of broader access to healthcare for all, we help drive industry progress and bold change.

PASSION for CHANGE.

Mission: **Equal Healthcare for All**

Vision: **To Lead Healthcare Innovation**

Access More

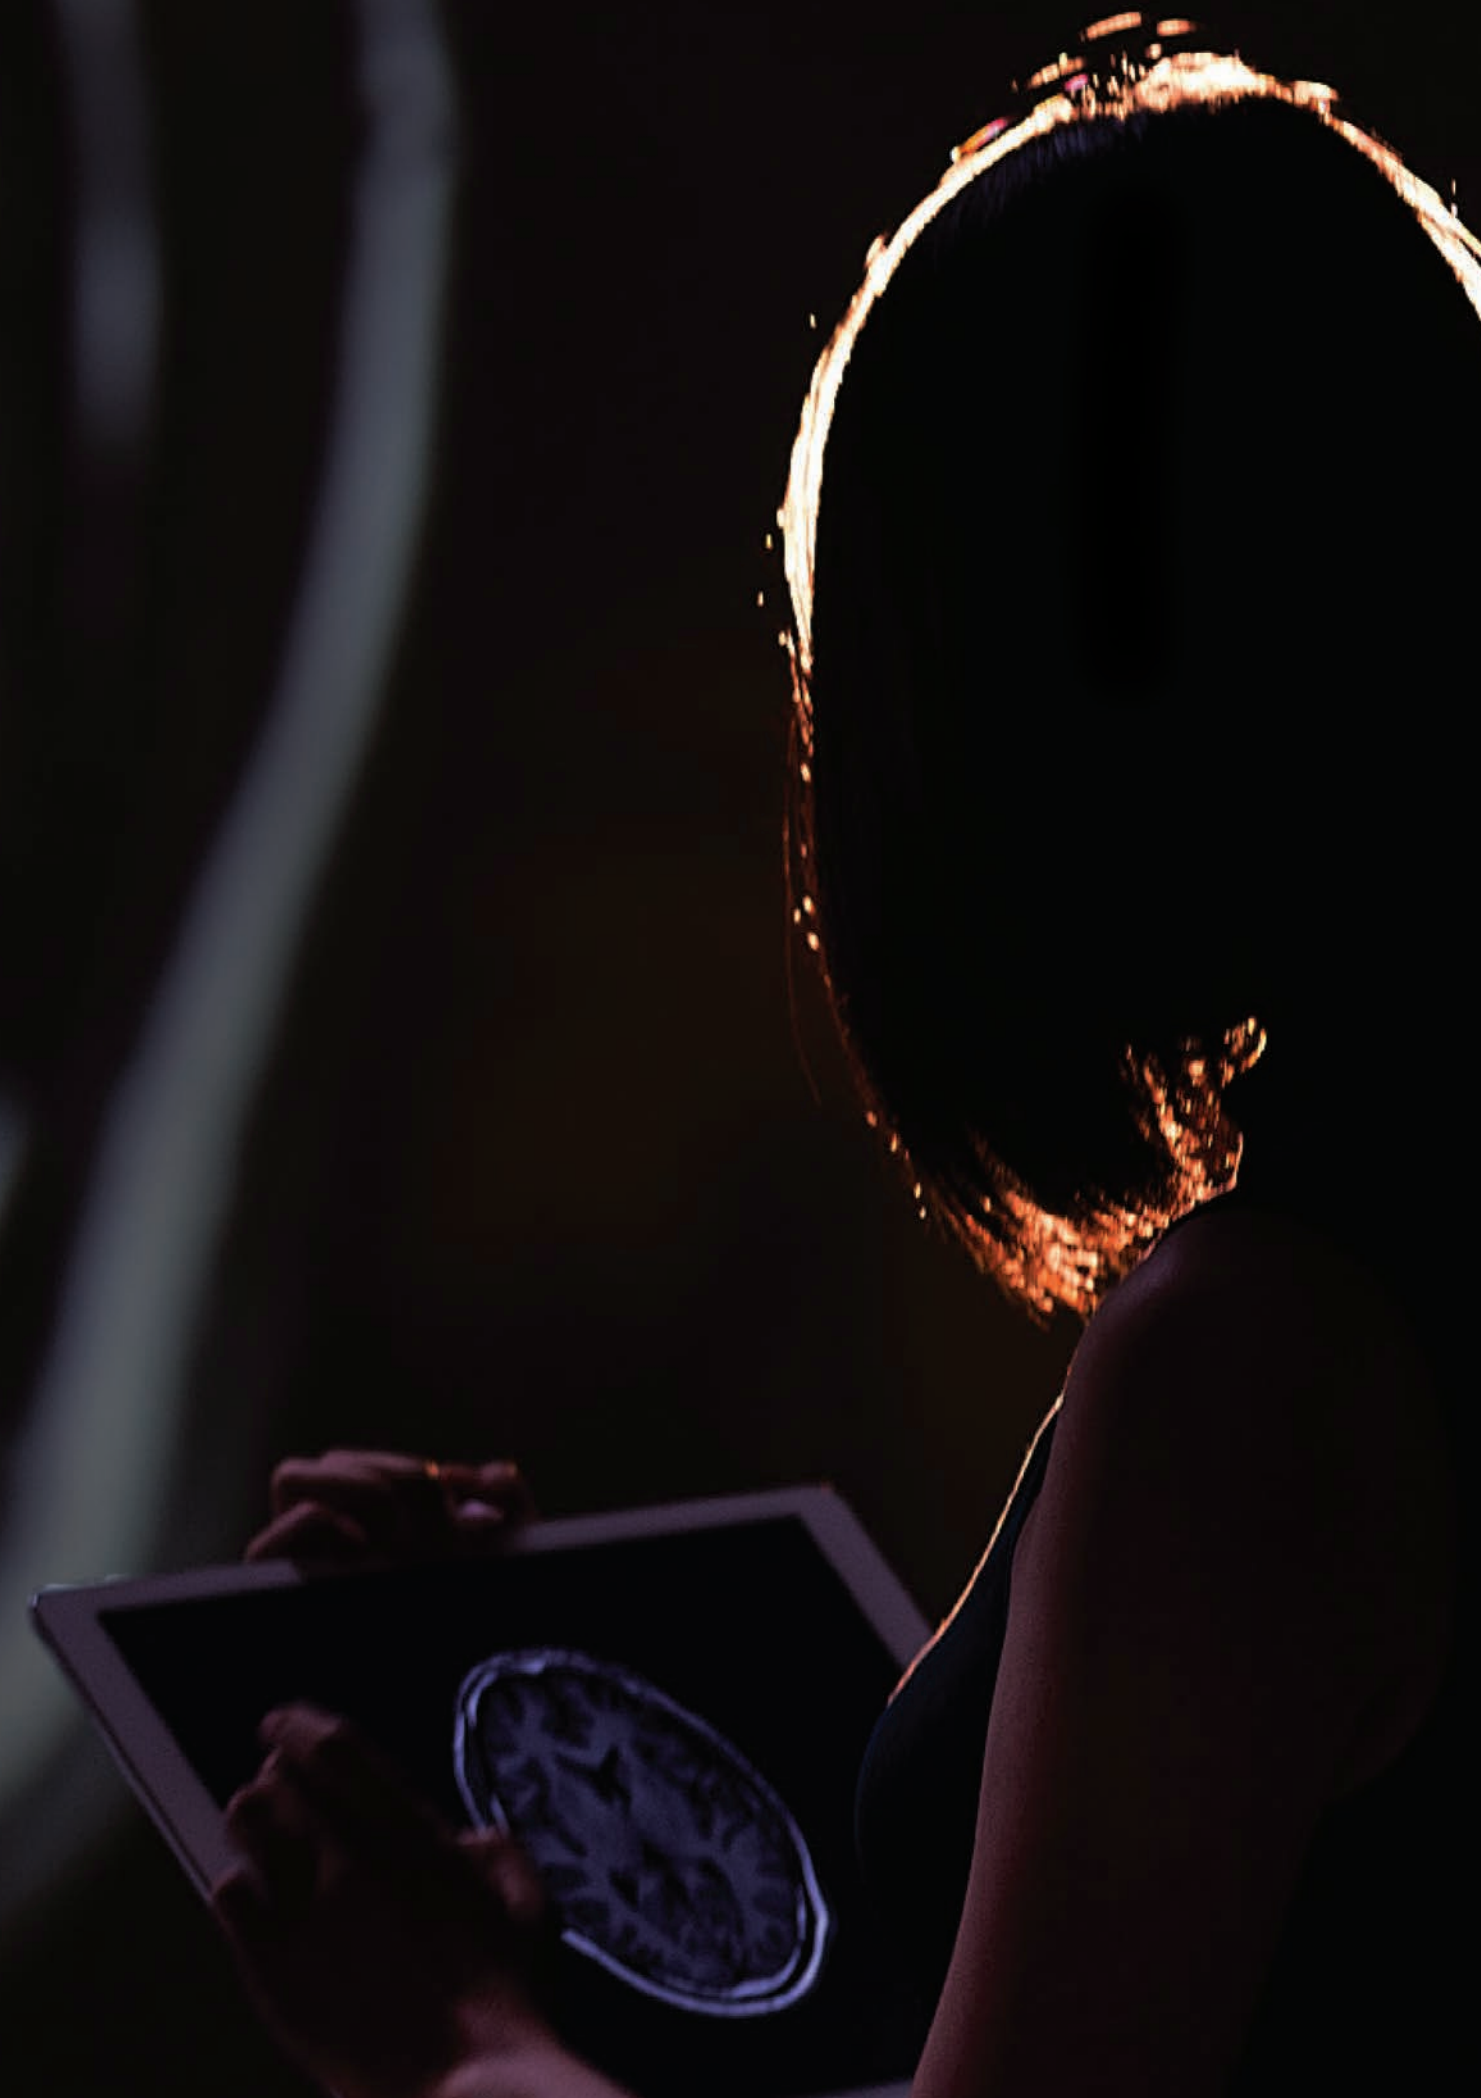

We believe everyone deserves access to the highest quality healthcare. We're committed to making the most innovative, advanced technologies accessible to all people, no matter where they live or where they receive care.

Perceive More

We know our customers as people. When we say we listen to our customers, we mean more than just hearing what they say. We internalize their needs and respond accordingly — continuing to commit ourselves to new levels of collaboration.

Provide More

We do more for our customers. When they win, we win. We embrace the highest standards of quality and craftsmanship — embedding breakthrough innovations and aesthetic design into each of our products and raising standards across the industry.

Built for the Modern World.

United Imaging is on a bold mission to change the way healthcare is delivered — to expand access to advanced medical diagnosis and treatment, and to raise the bar across the entire industry. We built our company to do just that.

- **Fresh, Bold, Modern**
- **Vertical Integration**
- **All-In Strategy**

2020 Gold Stevie® Award

Most Innovative Company of the Year: Up to 2,500 Employees

Leaders. Change Agents.

We're stacked top to bottom with leaders. We hire for talent over location, and can-do over can't do. Our executive team is made up of seasoned U.S. imaging veterans who joined because they saw a chance to solve industry needs differently.

CEO Jeffrey Bundy, who leads North American sales, service, and operations, is guided by more than two decades of diagnostic imaging experience. He interviews every potential employee personally and believes that our culture makes the difference for our customers.

“We want every customer to be so thrilled with us that they ask to be a reference site.”

— **Jeffrey M. Bundy, Ph.D., CEO**

Maverick of the Year

2020 Gold Winner, American Business Awards

Customer Success

We built a modern company to solve industry needs the way customers want them solved. Our fresh, bold approach to business, the way we've tightly structured our supply chain, and our unique all-in strategy are designed to go beyond expectations and make it simple to work with us.

- United Performance Guarantee that goes beyond the expected
- Software Upgrades for Life
- Risk-sharing agreements customized to meet your needs
- Cost predictability with all-in coverage that includes training
- Adaptable service agreements and flexible service delivery
- Personalized clinical applications support

“United Imaging has been so easy to work with. I think they’re revolutionary in the imaging industry for the U.S.”

— Shery Roussarie, CEO
Allied Imaging Center

World Firsts

uMR OMEGA™

75 cm Bore MRI Scanner

Widest bore in the world at any field strength,¹ designed to accommodate a broader range of patients.

1. Data on file; <https://www.ecri.org/>, retrieved 1/27/2020.

UEXPLORER®

Total-Body PET/CT

First-ever scanner that captures a 3D total body scan in seconds with the patient in one bed position.²

2. Data on file; <https://www.ecri.org/>, retrieved 7/6/2020.

uMI550 Mobile

Digital PET/CT

The first mobile digital PET/CT,³ driving access to breakthrough technology for more people around the U.S.

A Portfolio United

Beautiful image quality enables more confident diagnoses.

Systems perform at a high level through years of use.

Ease of use improves productivity and simplifies training.

Elegant and modern design enhances patient comfort and safety.

Digital Radiography (DR)

Fully automated floor- and ceiling-mounted systems

Molecular Imaging (PET/CT)

All digital, axial field of view 24 to 194 cm

Magnetic Resonance Imaging (MRI)

Fast and high-quality 1.5T and 3T imaging

Computed Tomography (CT)

20- to 160-slice, high resolution, low dose

Artificial Intelligence

Beyond the Boundaries

Innovating within the boundaries of each individual modality is not bold enough.

We're pushing machine learning to reinvent the way patients experience their imaging appointment, from the moment they walk in, to the moment they're safely on their way home, and beyond.

Our award-winning artificial intelligence team is based in Cambridge, Massachusetts.
