PocketHealth

Discover the freedom of patient-driven image sharing

The world's first image exchange platform that completely eliminates CDs from your workflow

The Challenge

CDs and legacy digital image exchange networks add **complexity and friction** for providers and patients, and **negatively impact patient outcomes.**

The Solution

PocketHealth helps you **put the patient at the center of the image sharing process** and truly get to zero CD, meaning **no more wasted time and money**, no more unnecessary repeat imaging, **no more delays in care**.

Enable patient-centered care

+ Patients can **permanently own, access, and share** their imaging **any time**, on **any device**, without limitations.

+ **Empower patients to be better educated on their care**, leading to better conversations and improved outcomes.

+ **Zero CD** means **no more unnecessary repeat imaging and patient visits** to pick up CDs.

+ **Real-time sharing** and an **FDA approved zero-footprint viewer** provide faster time to diagnosis.

Eliminate friction

+ An **intuitive interface** that's easy for everyone to use.

+ A **one-click solution** that integrates with your existing workflows without adding complexity.

+ **HIPAA compliant, web-based platform** that connects to any PACS, VNA or EHR.

+ **100% automated process captures patient consent** and identity with zero clerical involvement.

Get the custom support you need most

+ Our **customized training sessions** ensure your staff feel comfortable.

+ We provide **all the marketing you need** to get your patients aware of and enrolled in PocketHealth.

+ Our **24/7 patient support** means your staff can focus on what matters most - patient care.

+ **Detailed reporting** gives you ongoing insight into the impact of PocketHealth

"As one of South Florida's leading imaging centers, we are always looking to improve the patient experience, while streamlining our own internal workflow. PocketHealth helps patients gain access to their diagnostic imaging and results without waiting for a CD after their appointment, and helps our specialist community more easily access their patients' records."

Cathy Fara
CEO of Unique Imaging, Florida

Used by over 500,000 patients and 550 healthcare facilities across North America
