

# Stay one step ahead with the Dossier Competency management platform.

In the fast-paced world of healthcare, you can't afford to fall behind. And to provide the highest quality healthcare, you consistently need to be one step ahead. That's why we created a cloud-based competency management platform that improves your team's talent level, which in turn increases the health of your entire organization.

## A simple dashboard to optimize the most complex professions.

We made sure our dashboard is clean and simple but incredibly robust, capable of handling thousands of employee competencies across any clinical department. And the experience is effortless, eliminating the pains of cumbersome legacy systems.

### Real time all the time.

Dossier is constantly updating. So you can check on your staff's competency progress in an instant.

### End the Paper Chase.

We support all modalities of learning from didactic to direct observations and everything in between.

### Works with any LMS.

Dossier is designed to be flexible and work seamlessly with other systems, integrating with your current LMS.

Less than  
**3 Week**  
Implementation

**99%**  
Eliminated paper records

More than  
**65%**  
Reduction of administrative time

**85%**  
Increased employee satisfaction

**100%**  
Visibility to all staff competencies

A photograph of three healthcare professionals sitting around a wooden conference table. On the left, a woman in blue scrubs is looking towards the center. In the middle, an older woman in a white lab coat with a stethoscope around her neck is looking at a laptop. On the right, a man in a dark suit is also looking at the laptop. There are coffee cups on the table.

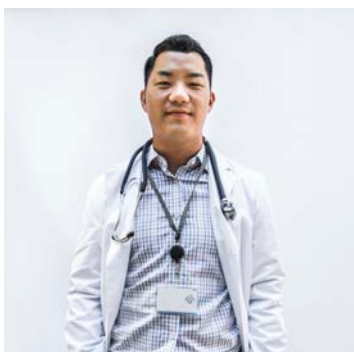

# Make audit day just another day.

## Better Reporting

Clear and customized comprehensive reporting means you can spend less time scrambling for audits and more time focusing on patients.

## Risk Avoidance

Because of its ease of use and better performance, competency is raised, and risks and problems are lowered.

## Covid didn't slow them down. Neither should competency.

What a year it's been for healthcare. The world's heroes are exhausted mentally, physically, and emotionally. They could use a nap, not complicated competency practices. Use their precious time wisely and more efficiently. With Dossier, you can make back to normal, better than ever.

# Dossier

## We have over 20 years of staying ahead behind us.

We've been leading in competency management for two decades. We've seen it all, but we haven't seen you. Reach out today.
