THE SMS DIFFERENCE

ESTABLISHED 1980

MOBILE SOLUTIONS

With our expansive fleet of mobile systems in service throughout the country, we have the knowledge, depth of experience, and resources to get your facility up and running. Our mobile coaches are completely self-contained, including a full environmental system which allows us to operate directly adjacent to your facility.

CT | MRI | PET/CT | Mammography

ADD OR UPGRADE YOUR PET/CT SERVICES

- 3D Imaging - Smaller Lesion Detection, Less Dose to Patients
- Mobile, Stationary & In-House Solutions
- Complimentary Marketing Tools & Support Including Customized Material for Referring Physicians, Staff & Community

STATIONARY SOLUTIONS

Shared Medical Services' (SMS) stationary solutions include ***parked, modular, and in-house*** solutions. Partnering with SMS allows your health care program to become fully operational faster, to expand service lines with minimal capital outlay, and to recognize revenue for your departments sooner.

CT | MRI | PET/CT | Mammography
