

About Us

# Your Uptime. Our Obsession.

ISS was founded by Ryan Clarke as a quality equivalent, full-service, customer-centric, cost-competitive alternative to the Contrast Injector OEMs who seemed the only customer option. It is a family based company with a relentless focus on their customers' success.

**ISS is the Gold Standard in third-party injector service, offering:**

- **Custom Programs:**
  - On-Site Repair
  - Depot Repair
  - Loaner Availability
  - Training and Technical Support
  - Parts Sales and Parts ID
  - Preventative Maintenance Tools
  - Injector Sales
- 30% Savings Versus OEM
- ISO 13485:2016 Certified (May 2020)
- **Full OEM Coverage:**
  - Medrad/Bayer
  - Liebel-Flarsheim/Mallinckrodt/Covidien/Guerbet
  - EZEM/Acist/Bracco

ISS and 626 united in late 2019 to complement the ISS injector service solution with a full imaging service portfolio. ISS and 626 are the fastest growing service companies in the space and offer a highly distinctive, end-to-end solution for imaging centers and hospitals seeking a flexible, turn-key program for any OEM and imaging modality.
