

Leverage your healthcare technology to support the integration of your health system.

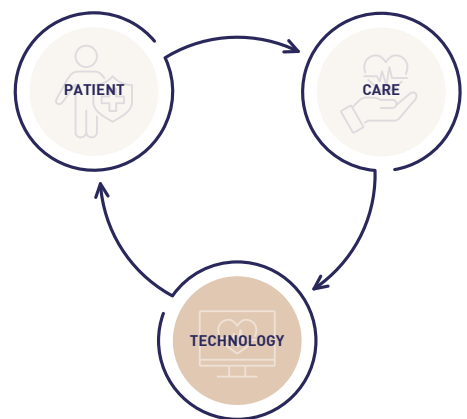

Comprehensive Asset Management for all of your healthcare technology

Operating as a true health system is an imperative in today's environment. Taking a comprehensive asset management approach to integrating and maximizing all system assets is critical to achieving quality care outcomes and financial health.

AT SODEXO HEALTHCARE WE ARE POWERING HUMAN CARE.

We recognize that the work we do is foundational to care delivery, ensuring that patients can be diagnosed and treated, efficiently and effectively all day every day across our system of care.

It is our mission to ensure your healthcare technology is operating at peak performance and at the highest levels of safety and quality across your health system.

WE BRING AN EVIDENCE-BASED APPROACH TO MANAGING YOUR HEALTHCARE TECHNOLOGY ASSETS, ONE BASED ON VISIBILITY TO DATA AND INSIGHTS.

Proprietary **state-of-the-art CMMS** drives optimal management of your assets and informs ongoing recommendations on how to maintain and plan for the future.
