

The smallest and lightest lower limb PCD*

Clinical Study Results¹

In a single-center, open-label, single-arm study, 15 patients with lower limb lymphedema were asked to evaluate the use of Aria Free™ for the treatment of lymphedema. The study showed:

1.85% mean limb
volume reduction

High subjective
comfort rating

Smallest
and lightest
lower limb PCD*

Backed by ResMed

Developed in association with our parent company, ResMed, our cloud-connectable pump is backed by thirty years of innovative health technology expertise.

“

I rarely have time to myself and self care usually falls to the bottom of my to do list. With the Aria pump, I find it to be a simple and efficient way to manage my lymphedema. It gives me the comfort I need before falling asleep. I've noticed, that in the morning, my legs are smaller, lighter, and ready to begin the day."

Ashley Jones

Living with lymphedema for 29 years

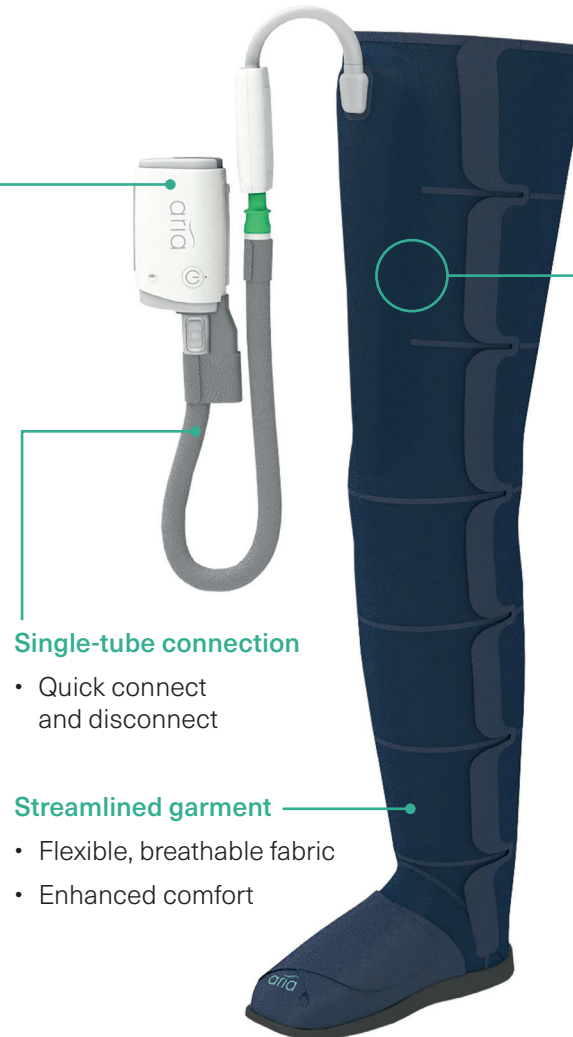

Designed to be Different

Compact pump

- Lightweight 10.6 oz.
- Small footprint: 5.4" x 3.3" x 2.1"
- Bluetooth technology
- Universal AC power supply (110V-240V)

Single start/stop button

- Pause therapy and walk without doffing garment

Single-tube connection

- Quick connect and disconnect

Streamlined garment

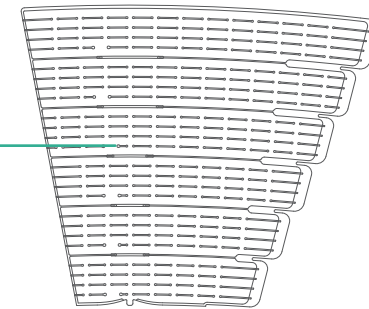

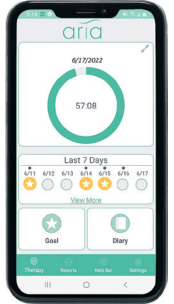

- Flexible, breathable fabric
- Enhanced comfort

Mobile App

The free companion app works as a personalized management tool for Aria Free™ users, helping them stay on track with therapy and share progress with their healthcare provider.

Patients can:

- Set therapy goals and record progress
- Access helpful tips and resources

Garment air channels

- Proprietary Hi-Res™ technology delivers comfortable gradient sequential pressure with more contact points on the skin
- Garment contains 35+ air channels within 7 air chambers
- Therapy is designed to effectively improve lymph flow and reduce limb volume

Includes travel-friendly bag

CARES program

Aria Free includes our CARES program, which is designed to keep patients engaged with therapy. Learn more at ariahealth.com/clinicians
