ABOUT KACE

For more than four decades, our analysts and experts have helped government agencies at every level detect and deter a wide variety of threats, advance public safety and health initiatives, and support government operations. And today, we are enhancing agencies' ability to anticipate future threats and challenges—by educating our protectors in a range of expanding technical forensic, investigative, and intelligence gathering domains. Utilizing trainers with law enforcement and national security experience, KACE is helping prepare our protectors to excel in digital intelligence and forensics to secure a better future for all.
