ABOUT COMPANY

Our software is used for processing and analyzing Android and iOS smartphones and tablets as well as Windows, Mac and Linux computers, external drives, drive images, and other media storage (USB flash drives, memory cards, etc.).

DIGITAL FORENSICS COMPANY

ADF Solutions is a cyber/digital forensics technology company and the leading provider of intelligent digital forensics and media exploitation tools.

A NEW ERA OF DIGITAL INTELLIGENCE

ADF software is built to be easy to use and easy to learn so you can scale your digital investigation capabilities to meet the demand.

All ADF software shares the same intelligent search engine and rapid scan capabilities. The key differences are in the features focused on deployment and usage scenarios from RAM Capture and field investigations to lab triage
