

**XCAT**<sup>®</sup>

The Surgeon's Truly Portable CT Scanner for the OR

## Intraoperative mobile xCAT

BECAUSE FOR SUCCESSFUL SURGICAL INTERVENTIONS ...  
IMAGE QUALITY MATTERS AND A FULL-BODY CT WON'T  
FIT INTO YOUR OR

# YOUR WINGMAN IN THE OR

For those moments when having a clear picture would make a difference—xCAT is designed to meet the specific needs of surgical specialists who require high definition bone images.

WHEN THE STAKES ARE HIGH,  
IT'S GREAT TO HAVE AN ALLY IN THE OR.

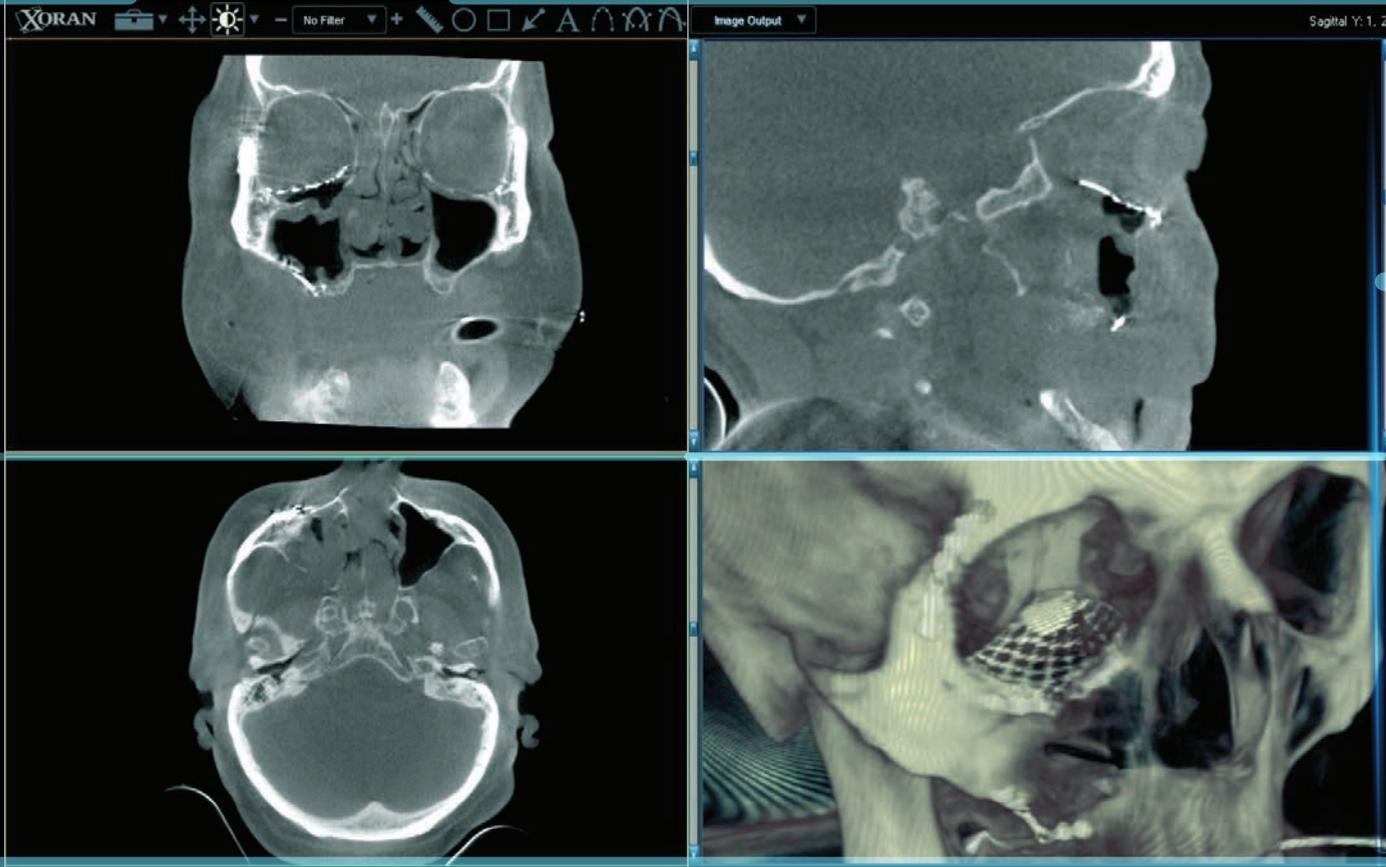

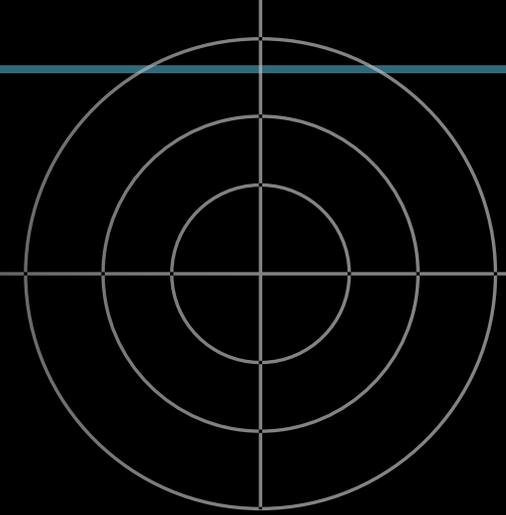

**xCAT** DESIGNED FOR SURGEONS

# PORTABLE

**Compact** - stores in OR for immediate access

**4 wheel steering** - easy to move into position

**Self-shielded** - safe operation from the console

# PRECISE

**Confirm** - accuracy of implants, plates, and fracture reductions

**Optimize** - surgical procedure and real-time IGS updates

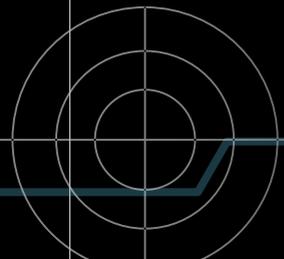

**Visualize** - with sub-millimeter spatial resolution

# PRICELESS

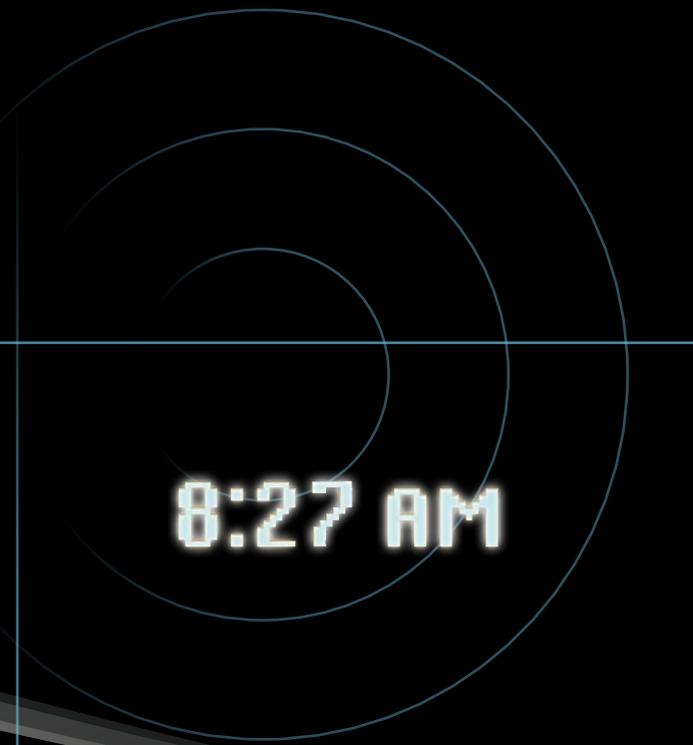

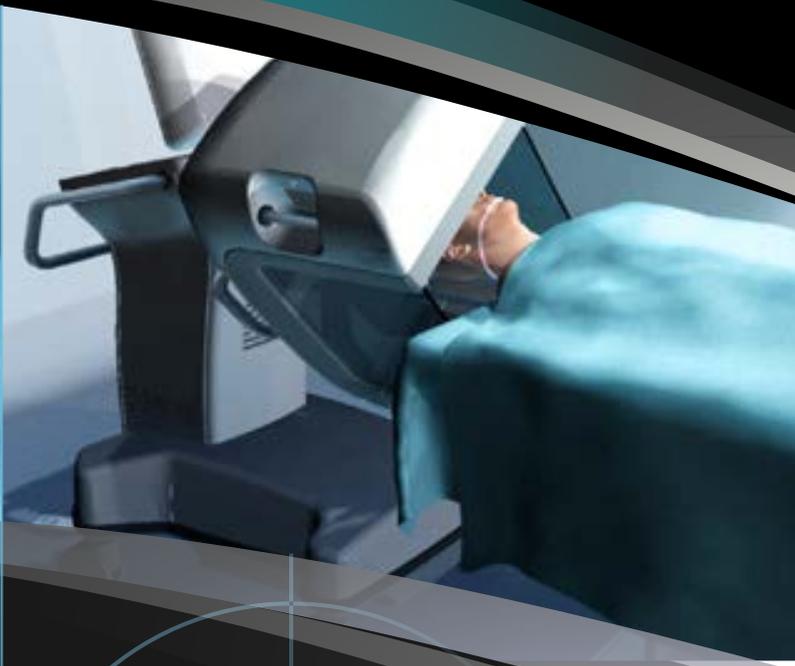

**Verify** - completeness, get it right the first time

**Link** - seamless connection to PACS

**Enable** - adjustments to surgical plan

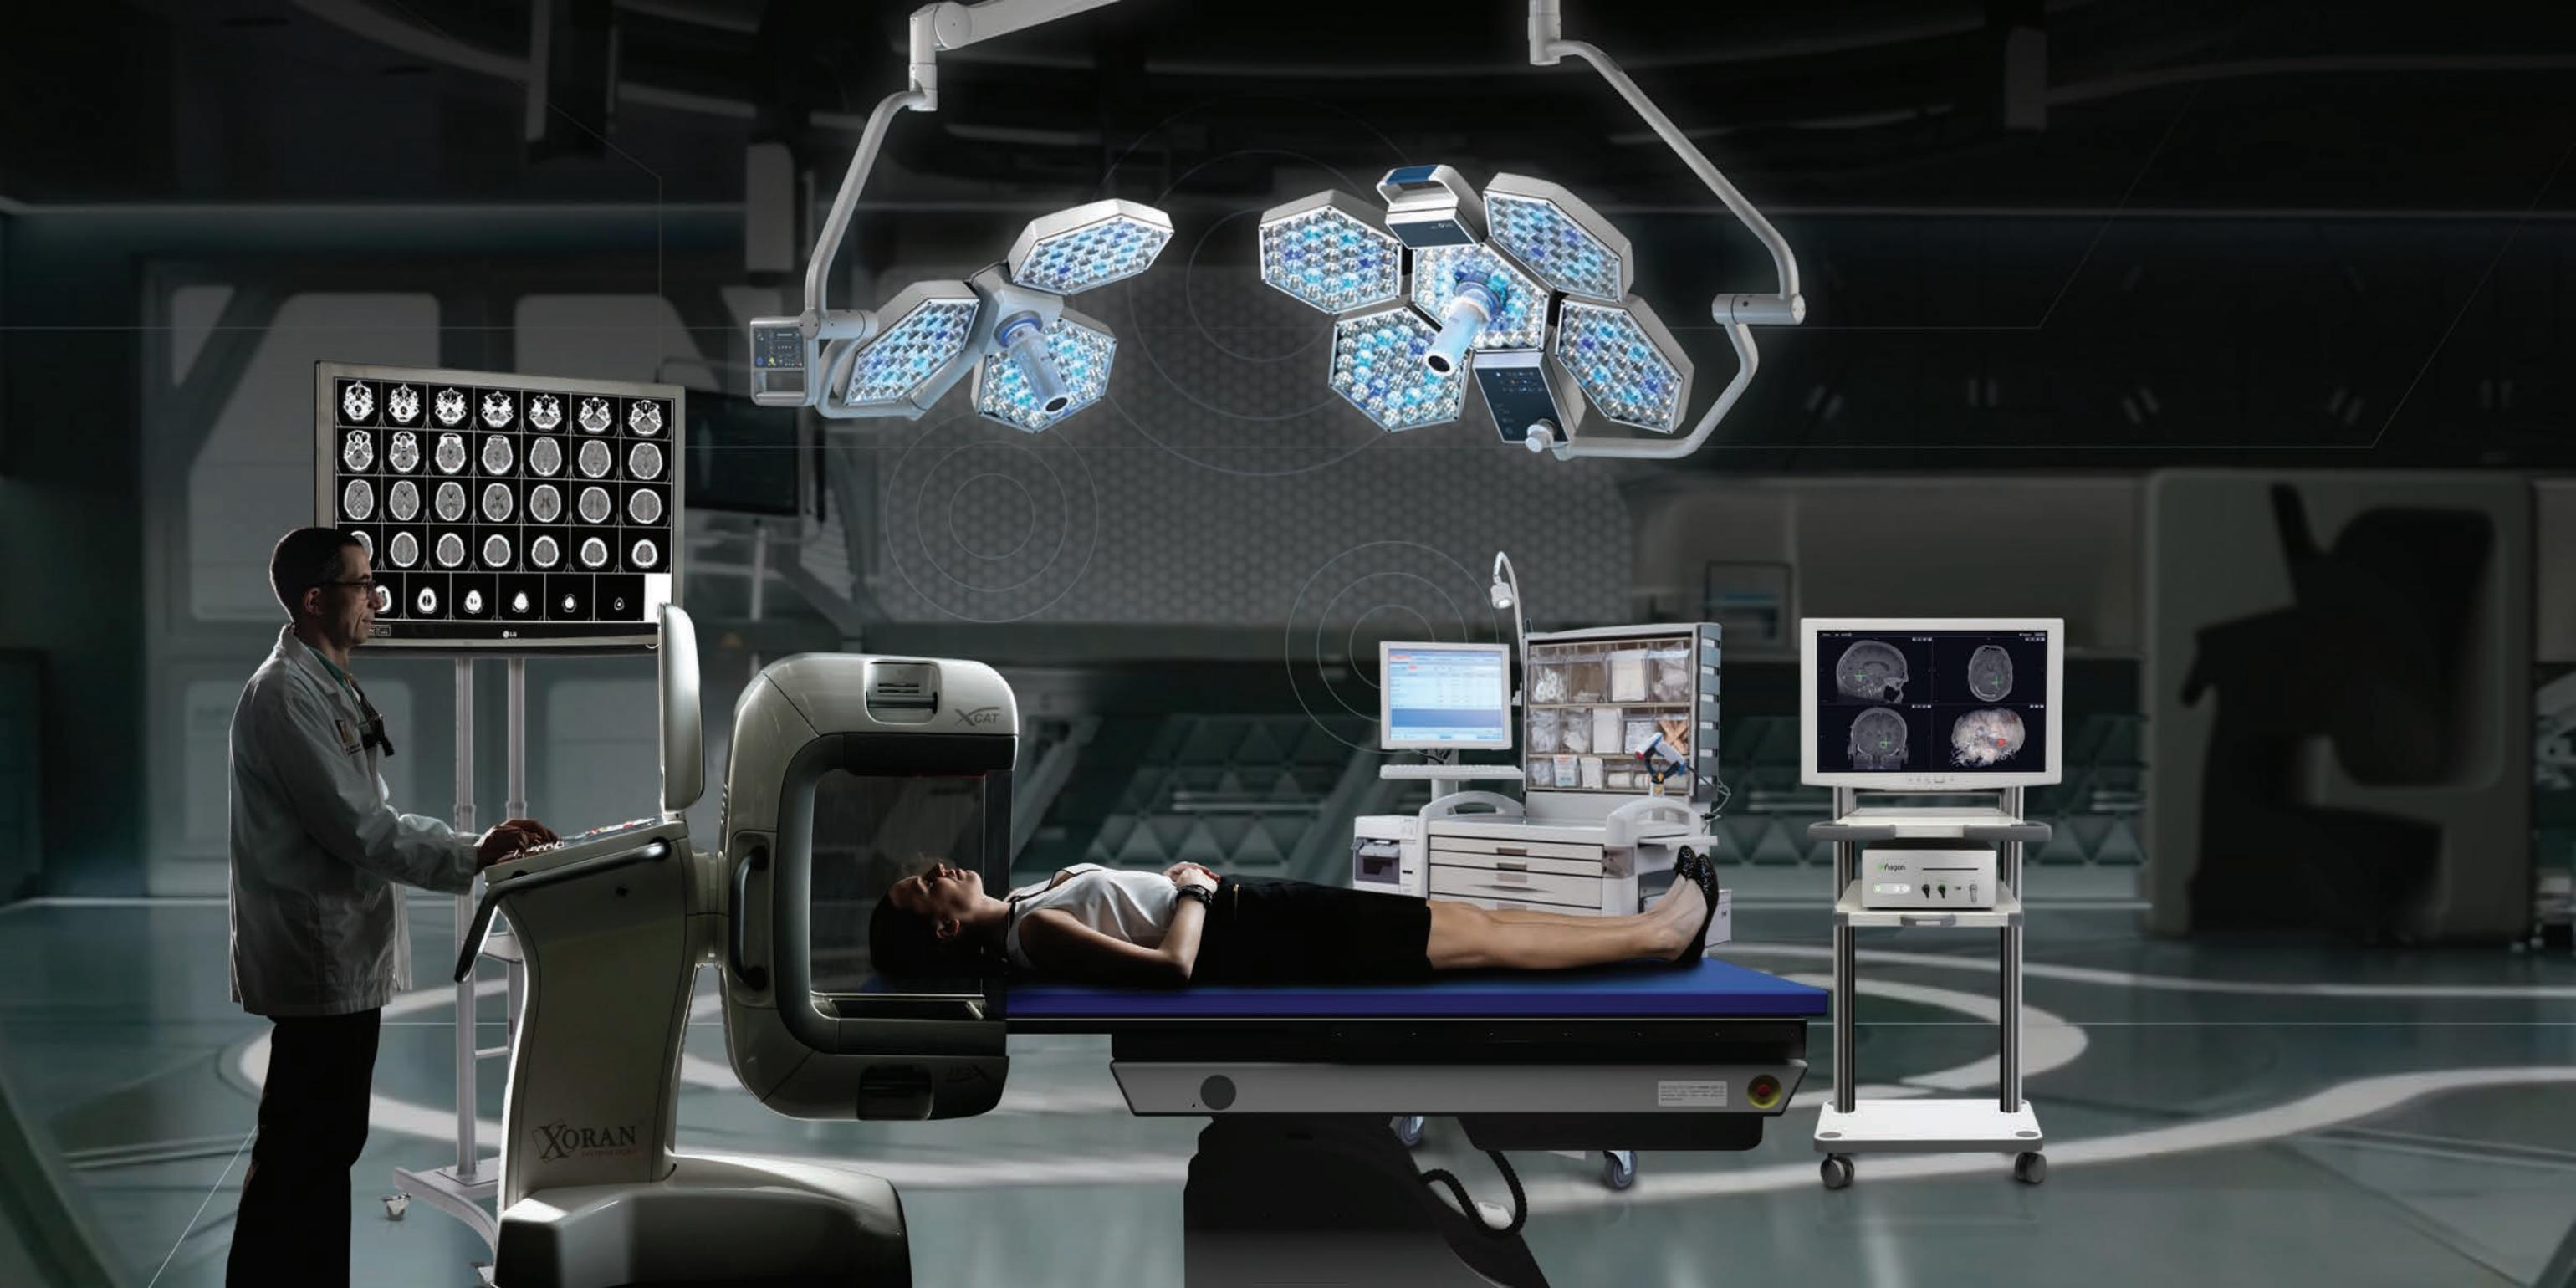

# WORKFLOW

8:25 AM

Xoran is the pioneer and market leader  
in medical CBCT since 2001.

xoran makes the complex simple.
