- Real time face-to-face communication
- One-time cost
- 100% confidentiality
- Builds relationships/trust
- Accessibility
- Available 24/7/365
- Ability to save important conversations
- Only weighs 3.5 lbs. – 100% portability
- No Internet or Wi-Fi needed
- Fills 90% gap when interpreter is unavailable

TYPES OF **UbiDuo³** COMMUNICATION DEVICES

UbiDuo³ Wireless

sComm's latest UbiDuo 3 model continues to advance in face-to-face communication technology with a sleek package that weighs a total of 3.5 lbs. and has a capacitive screen for pinch/zoom navigation.

\$2,995.00

UbiDuo³ Wired

When our client's spoke, we listened carefully. They asked for a hard-wired UbiDuo model that would not risk interference with other wireless signals that could be used for communication in secured areas where wireless connection is forbidden.

\$3,195.00

UbiDuo³ TTS 1

The groundbreaking UbiDuo 3 TTS 1 includes a single text to speech module and speaker that allows one of the two parties to provide a spoken component to the conversation.

\$4,195.00

UbiDuo³ TTS 2

The UbiDuo 3 TTS 2 includes two text to speech modules with internal speakers to allow both parties of the conversation to voice their thoughts and communication to each other.
