Endura Series Lower Bed

EN 6000-1

Max-Secure's research and development team has decades of experience solving issues specific to the corrections and institutional furniture industries. We have leveraged this experience to design a bed that is safe, secure, durable, and comfortable.

For 40 years, Max-Secure furniture has been installed in correctional facilities across North America with a "zero failure" record when installed by our specialized team. Constructed with Max-Secure's advanced proprietary Herculite polymer, our bed exceeds all national and state fire codes and impact load tests. The long low lines of the bed make it attractive and stable. The rounded corners ensure safety and reduce the possibility of injury. The lower bed is available in a variety of colors to complement your facility's décor.

MAINTENANCE FREE FABRICATIONS

Max-Secure furniture is maintenance-free and comes with an industry leading ten-year warranty. Our beds are designed to make your resident rooms feel more like living areas and are proven to withstand continuous use in institutional and correctional environments.

PROPRIETARY HERCULITE POLYMER COMPOSITE MATERIAL

All Endura series products are constructed from our proprietary structural polymer composite. This proven material has been formulated to be maintenance-free, impact resistant, and will not produce toxic fumes.

See back for details.

PRODUCT FEATURES

- Unprecedented 10-year warranty
- Maintenance-free one-piece construction
- Designed to prevent injury to self or others
- Meets all national and state fire codes
- Herculite Polymer Composite will not produce toxic fumes
- Pick-proof perimeter sealant forms an impenetrable barrier
- No exposed fasteners
- No space for concealment
- Smooth finish prevents bed bug infestations
- Can be wall-mounted, corner-mounted or free standing
- Factory-trained installers provide 10-year installation warranty
- Made in the USA

Endura Series Wall Mounted Desk

EN 6000 – 9

Max-Secure's research and development team has decades of experience solving issues specific to the corrections and institutional furniture industries. We have leveraged this experience to design a desk that is safe, secure, durable, and comfortable.

For 40 years, Max-Secure furniture has been installed in correctional facilities across North America with a "zero failure" record when installed by our specialized team. Constructed with Max-Secure's advanced proprietary Herculite polymer, our furniture exceeds all national and state fire codes and impact load tests. The unique fastening system leaves no exposed fasteners and the rounded corners ensure safety and reduce the possibility of injury. The wall mounted desk is available in a variety of colors to complement your facility's décor.

MAINTENANCE FREE FABRICATIONS

Max-Secure furniture is maintenance free and comes with an industry leading ten-year warranty. Our desks are designed to make your resident rooms feel more like living areas and are proven to withstand continuous use in institutional and correctional environments.

PROPRIETARY HERCULITE POLYMER COMPOSITE MATERIAL

All Endura series products are constructed from our proprietary structural polymer composite. It has been formulated to be maintenance free and will not produce toxic fumes.

PRODUCT FEATURES

- Unprecedented 10-year warranty
- Maintenance-free monolithic construction
- Designed to prevent injury to self or others
- Meets all national and state fire codes
- Herculite Polymer Composite will not produce toxic fumes
- Pickproof perimeter sealant forms a complete liquid barrier
- Resists scratching or carving of surface
- No exposed fasteners
- No space for concealment
- One piece construction for ease of installation
- Available as wall-mounted or corner-mounted desk
- Factory trained installers provide 10-year installation warranty
- Made in the USA

Endura Series Mattress

EN 6000 – M

Max-Secure's research and development team has decades of experience solving issues specific to the corrections and institutional furniture industries.

For 40 years, Max-Secure furniture has been installed in correctional facilities across North America with a "zero failure" record when installed by our specialized team. Constructed with Max-Secure's unique flame resistant vinyl, our mattress offers superior comfort and support, while also providing exceptional safety and durability. The double lock-sewn seams will not unravel, and the soft vinyl cover has proven flexibility and resistance to cracking.

MAINTENANCE FREE FABRICATIONS

Max-Secure furniture is maintenance-free and comes with a standard industry ten-year warranty. Our mattresses are designed to make your resident rooms feel more like living areas and are proven to withstand continuous use in institutional and correctional environments.

PRODUCT FEATURES

- Unprecedented 10-year warranty
- Designed to prevent injury to self or others
- Meets all national and provincial fire codes
- Excellent tear strength
- Punctures will not produce running rips
- Constructed with non-penetrable surfaces
- 3-ply vinyl laminate cover with double-needle, lock-stitch sewn seams that will not unravel
- Fits all Max-Secure Endura and Estilo Series beds

Marsala

Estilo Series Dining Table

ES 4000-1 (ES 4000-1T and ES 4000-1B)

Max-Secure's research and development team has decades of experience solving issues specific to the corrections and institutional furniture industries. We have leveraged this experience to design a table that is safe, secure, durable and styled to meet current furniture trends.

For 40 years, Max-Secure furniture has been installed in correctional facilities across North America with a "zero failure" record when installed by our specialized team. Constructed with Max-Secure's advanced polymer composition, our table exceeds all national and state fire codes and impact load tests. The rotationally molded process used in manufacturing the table base inherently creates a strong, durable and stable base. The table top is constructed with Max-Secure's proprietary impact resistant Herculite polymer. The rounded corners ensure safety and reduce the possibility of injury. The dining table is available in a variety of contemporary colors to compliment your facility's decor.

MAINTENANCE FREE FABRICATIONS

Max-Secure furniture is maintenance-free and comes with a standard industry five-year warranty. Our tables are designed to make your resident rooms feel more like living areas and are proven to withstand continuous use in institutional and correctional environments.

PROPRIETARY ADVANCED POLYMER MATERIAL

All Estilo Series products are constructed from our proprietary advanced polymer composition. This proven material has been formulated to be maintenance-free, impact resistant, and will not produce toxic fumes.

PRODUCT FEATURES

- Five-year limited replacement warranty
- Maintenance-free monolithic construction
- Designed to prevent injury to self or others
- Meets all national and state fire codes
- Advanced Polymer composition will not produce toxic fumes
- Resists carving or scratching of table top surface
- No exposed fasteners
- No space for concealment
- Can be ballasted to prevent lifting or throwing
