

# Assessing Social Determinants of Health

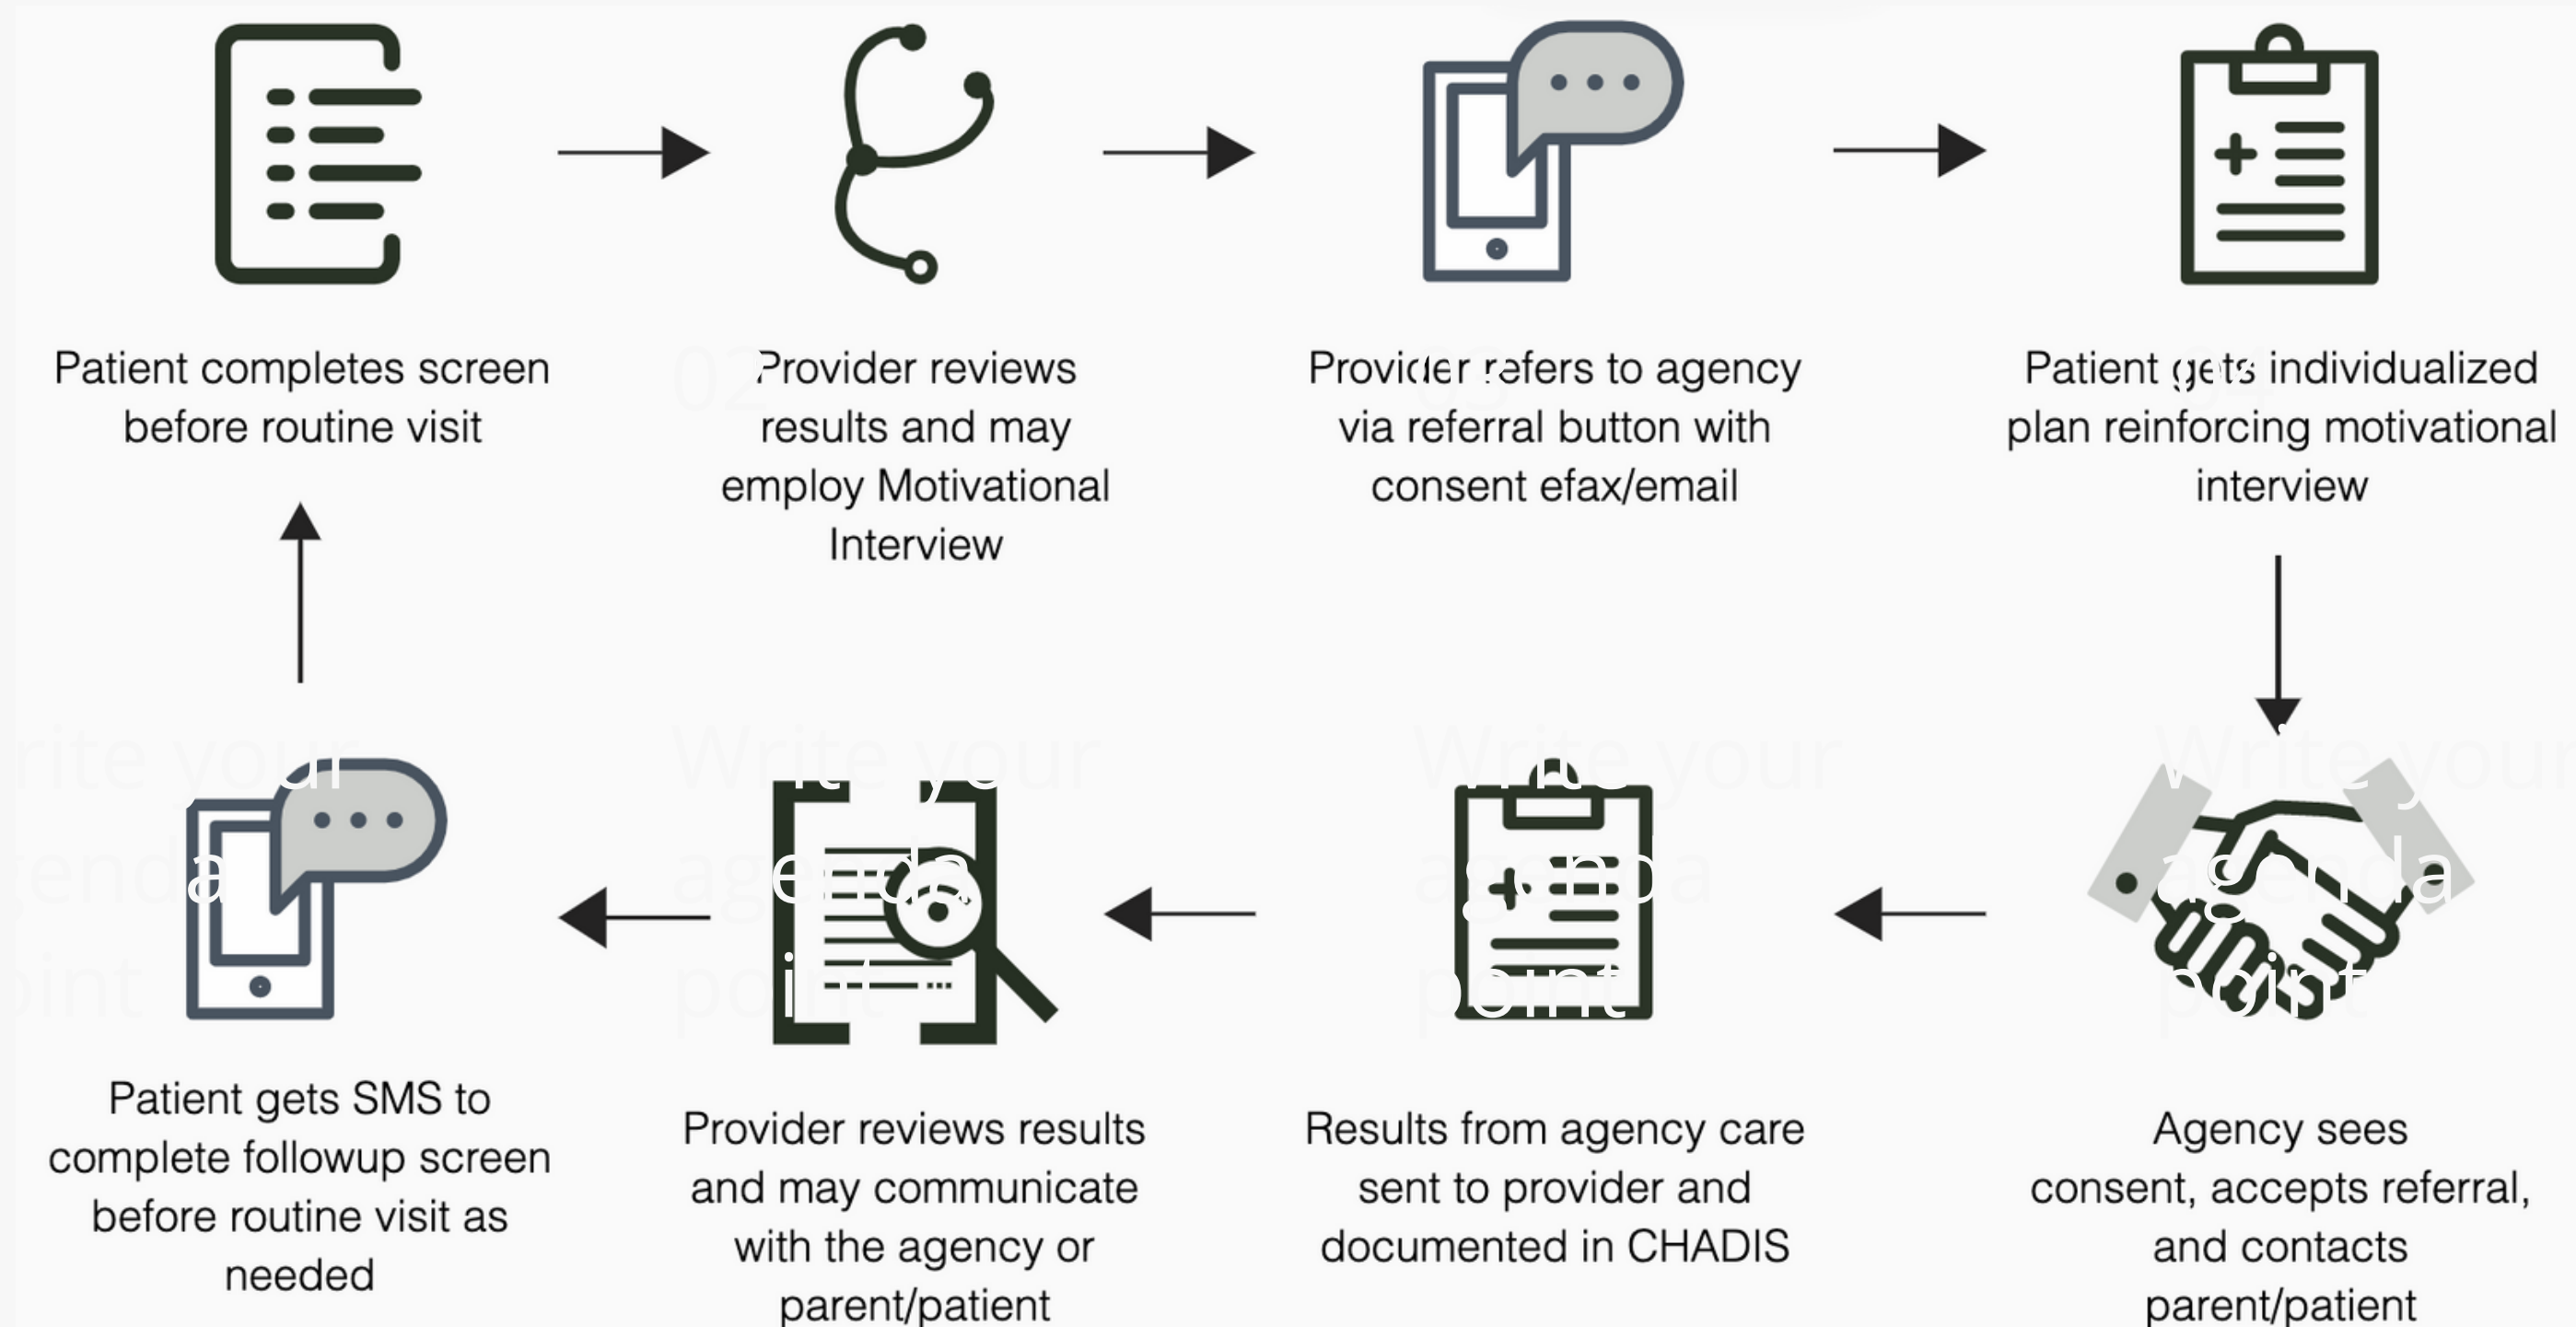

[www.chadis.com](http://www.chadis.com)

CHADIS can help identify SDoH with options for clinical process support: identifying potential barriers; support for patient specific motivational interviewing; clinician MOC-4 credits for quality improvement; post-engagement messaging; connection with local resources; tracking outcomes - together comprising an entire system of care with population metrics.

# CHADIS SDoH FLOWCHART

# SDoH Questionnaires Available with CHADIS
