

Ship refrigerated products safely

It's vital to keep your refrigerated products at a safe temperature during storage and transportation. McKesson Medical-Surgical can help support that with a variety of cold chain products designed to meet your pharmaceutical transportation needs.

Our shippers offer:

Packaging designed to maintain 2-8 degrees C (36-46 F) for up to 36 hours

Summer and winter seasonal packout designs to maintain safe temperatures

Compliance with STD-7E testing standards for thermal transport packaging used in parcel delivery system shipment, as described by the International Safe Transit Association (ISTA)

A network of manufactures and products

Custom testing and designs

Design options including panel, molded, green solutions, gels and foam/bubble lined pouches

Environmentally friendly green solutions include:

- Lifoam Biodegradable EPS
- KodiaKooler

Many product options available, reach out to your Account Manager for a full list.
