COST EFFICIENT SOLUTIONS FOR INMATE LEGAL RESEARCH

For most jails, it's tough to justify the thousands of dollars required to develop and maintain an inmate law library. Did you know you can meet your facility's constitutional mandate for a lot less and still provide all the benefits of a traditional inmate law library and a whole lot more?

*The fundamental constitutional right of access to the courts requires prison authorities to assist inmates in the preparation and filing of meaningful legal papers by providing prisoners with adequate law libraries or adequate assistance from persons trained in the law. **Bounds v. Smith** (430 U.S. 817)*

LRA's Virtual Inmate Law Library program provides a cost-effective alternative to maintaining a physical law library at your jail or prison. Whether your program consists of bound volumes, PC's or both, the cost of facilitating inmate legal research can be very high. Many facilities incur substantial expenses to update books or replace equipment damaged by inmates. In addition, most are forced to allocate precious staff time to securely move inmates or incur liability by having employees aiding in the research. The combined direct and indirect costs are typically far more than the cost of our service.

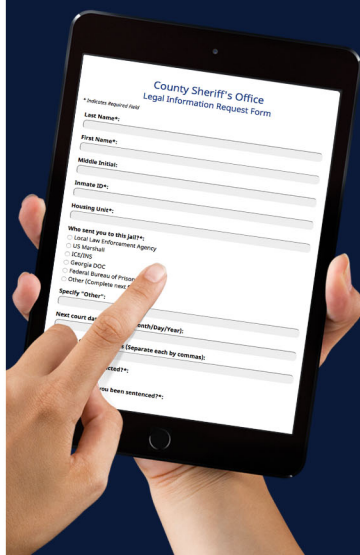

HOW THE VIRTUAL INMATE LAW LIBRARY PROGRAM WORKS

IT'S JUST THAT EASY...

All research responses are prepared by persons trained in legal research working under the supervision of one or more of our licensed attorneys. Our staff accesses continuously updated content so the information they provide inmates is as current as is available.

...AND IT'S ALSO FLEXIBLE

While most of our clients submit paper forms and receive printed content, facilities can opt to utilize Paper, Kiosks or Tablets or even a combination of these to accommodate varying needs across a facility.

Dedicated to the Corrections Industry since 1995, LRA works with over 100 facilities around the US, providing over 25,000 responses per month to inmate legal research requests.
