Zero Failed Implementations

An OMS customized to YOUR needs

Locally assigned staff for implementation and beyond

YOUR PARTNER in Offender Management software and professional services

LEADING THE WAY IN OMS IMPLEMENTATION

A DECISION YOU SIMPLY CANNOT AFFORD TO MAKE TWICE.

Make your OMS decision once. With confidence.

The Mi-Case OMS solution ensures you have:

- Software that will work as your agency needs it to, when you need it to.
- Real time defect resolution through locally assigned
 Mi-Case staff for your state.
- Evergreen technology, paired with Mi-Case's belief in long term partnerships, to continue to adapt the software to evolving needs.

CUSTOMIZATION IS BUILT RIGHT INTO OUR FEE. EVERY TIME.

The key OMS software you want, customized to what you actually need.

- With each state's policies varying so greatly, we believe no **true** "out of the box" standard can exist. That's why our process anticipates that customization of our foundational features will be a vital part of implementing an OMS and making it operational on the level **your** agency needs.
- By building customization right into our fee and timeline, you're left with no surprise add-on fees or implementation setbacks.

MORE IMPLEMENTATIONS IN THE LAST 8 YEARS THAN OUR TOP COMPETITORS COMBINED

Our partners have experienced zero failed implementations.

- We have gone live with 3 successful implementations in the last 8 years, are on schedule to be live with our 4th in Indiana by 2023, with their first module already up and running.
- Insight and experience to make implementation go smoothly.
- Equipping you to anticipate and avoid common pitfalls.
- Partnering in change management and key transitions for your agency.
- Ensure no lost buy-in from key leaders.
- Working alongside you to build the right foundation for this pivotal organizational shift.

Mi-Case was founded on the belief that a better future for the offender begins with lightening the load of those managing the corrections journey.
